

(Ah)

We gon' give 'em sum to talk about  
No matter what you do, they'll try to bring you down  
But there ain't no one that can count me out  
Don't get tired of my name, 'cause you gon' see me 'round  
Hoodie on, when it's warm, paparazzi, know they swarm  
When you talk, lower your tone, brand new number, brand new phone  
Believe in you, did this on my own  
And I came up with my gang, no, I'm not alone

I live in the spotlight, cameras on my face  
I'm here for a long time, know I'm here to stay  
I don't need a handout, I can hold my weight  
I've been making songs because I'm tryna numb my pa-a-a-ai-  
I live in the spotlight, cameras on my face  
I'm here for a long time, know I'm here to stay  
I don't need a handout, I can hold my weight  
I've been making songs because I'm tryna numb my pain (Yeah)

No matter what you do  
Hope you know that everybody won't look up to you  
Hear some critics and some comments, and they'll say, "Fuck you"

They just do it out of spite, don't let it get to you  
'Cause you're everything they're not  
If you believe in yourself, then you can't be stopped  
In the center of the photo, so I can't be cropped  
Don't regard the shit they say, because they all just talk (One  
, two, one, two, three, let's go)

I live in the spotlight, cameras on my face  
I'm here for a long time, know I'm here to stay  
I don't need a handout, I can hold my weight  
I've been making songs because I'm tryna numb my pa-a-a-ai-  
I live in the spotlight, cameras on my face  
I'm here for a long time, know I'm here to stay  
I don't need a handout, I can hold my weight  
I've been making songs because I'm tryna numb my pain (Yeah)
