

old me

midwxst

So many missed calls
Too many mistakes
This girl in my bed
Say she from LA
I told her come over
She said it's too late
But you know the story
She slid anyway

I told you that it feels like I don't even know you
She said, "E3, I miss the old you"
I said that's something you'll get used to (Used to, yeah)
(That's something you'll get used to)
(Something you'll get used to)

I know that you think you want it
But, baby, let me tell you something
Not saying that you won't get dropped quick
But it's not a forever topic

So, let's just get acquainted, acquainted
She only love me 'cause I'm famous, famous
So, let's just get acquainted, acquainted
Maybe, baby

You stayed out for hours
We talked on the phone
She bitched she complained 'bout the things I do wrong
Can't talk to her about it
Put it in a song
Can't stand this girl
She won't leave me alone
So I rolled me a J
And turned off my phone
Not gonna spiral
For that I'm too grown
Won't stoop to your level
Stop calling my fucking phone

I told you I swear that I don't even know you
She said E3 I miss the old you
I said this is something you'll get used to (You'll get used to)
Let's just get acquainted, baby

She only love me 'cause I'm famous, famous
So then let's just get acquainted, acquainted (Yeah, yeah, yeah)
Baby, maybe
So then let's just get acquainted, acquainted
She only love me 'cause I'm famous, famous
So baby let's just get acquainted, acquainted (Yeah, yeah, yeah)
Baby, maybe

Now that we're over, I hope that you know
I'm wasting your time by leading you on
Girl you were a blessing
Shit you made this song
Smoked away my depression

Girl you were my bong
But after all these years
I still think you're wrong
Her lips taste like candy
Her blood is so cold
Stoop to your level
Stop calling my fucking phone

I told you that I swear I don't even know you
She said, "E3, I miss the old you"
I said that's something you'll get used to

Let's just get acquainted, baby
She only love me 'cause I'm famous, famous
So then let's just get acquainted, acquainted (Yeah, yeah, yeah)
Baby, maybe
So then let's just get acquainted, acquainted
She only love me 'cause I'm famous, famous
So then let's just get acquainted, acquainted (Yeah, yeah, yeah)
Baby, maybe
