Hey, Glumboy
Bah, ay
Yeah, yeah

I never lose money, it's always addition
That boy wanted that smoke, but then he got [?]
If your homie is dead, you know I'm gonna diss him
I'm just playin', bro, I already know that you miss him
I don't do this shit to me, that shit really lame
What the fuck do you do, what the fuck do you gain?
At the end of day, we all really the same
I know people on both sides, know what they claim
And I know that you gotta stay up with' yo gang
Don't want be at no funeral, sayin' your name
When I lost my damn auntie, it had me in pain
I don't ever want to go through all that pain again, no
But I know that my granny watchin', oh, she proud
Been on my grind, on it for a while
Gettin' real hard for me to fuckin' smile
God been challengin', we goin' through his trial
I ain't never fit in since I was a child
Smokin' on woods, I don't fuck with miles
Know people fuckin' with me and my style
Speedin' the whip, lookin' at the dials
Damn, that shit really just got sad
I didn't mean it to get like that, my bad
Really run this shit back, get back in my bag, yeah
New shit, boy, fuck that tag, ay
Mom told me, "Damn, I didn't know you rap that fast,"
"How you gettin' all the money, gettin' all that cash?"
"When you gonna buy me a new Louis bag?" (Haha)
Told her, "Which one?", and she said she was kiddin'
She know I wanna make this shit my fuckin' livin'
She know I'm not jokin', she know I'm not kiddin'
When I do my lil' dance and I sing in the kitchen (Haha)
My whole family know that they finna be proud
When they singing my name in the crowds, in their mouths
Made too many promises, can't let them down
Got my head above the water, no, I cannot drown
Got so many hours of makin' my sound
Got so many hours of cryin' out loud
Had so many days with my head, it was down
Had so many days when no one was around
Was losin' my sanity, hard to be found
Told all of my friends I put on for the town
But look where we at, where we at right damn now
I know I'm gon' make them give me that crown
