

Paralyzed

midwxst

You left me paralyzed
Hard to find someone to touch
When this world is so sterilized
Tryna watch the back of my heart, I was terrified
Uh, didn't even know it when I signed up (When I signed)
The sand keep goin', girl your time's up (Bitch, your time's)
Told her that the show is over
Girl, your lives' up

Need you back, need it bad
But you can't be mine, I don't understand
Birkin bags, got what you asked
But you can't be mine, baby what is that?
Made an exit but still don't get this (No I don't)
Girl you led me the wrong direction
Got the message but need you here, front row
Front row, front row
Love get dangerous, uh
And I just hate the picture that we painted, uh
We been going through all these different phases, uh
We ain't talked in months and girl I hate it (Oh, oh)

You left me paralyzed
Hard to find someone to touch
When this world is so sterilized
Tryna watch the back of my heart, I was terrified
Uh, didn't even know it when I signed up (When I signed)
The sand keep goin', girl your time's up (Bitch, your time's)
Told her that the show is over
Girl, your lives' up

Show's over, cut the lights
I don't want you in my sights
I don't want you near me 'cause you are my Kryptonite
You can't decide, we're wasting time
Tryna repair what we had
My heart was broken, watch it shatter into pieces
I look at what we had and don't know how we reached this point
And I know I won't recover
You'll probably seek another
You'll probably rediscover the love we had
We really only had each other
My heart, you were the crusher
You left me there to rot away, you left me there to suffer
Wish that we were never lovers
Love is such a pain in the ass, a motherfucker

You left me paralyzed
Hard to find someone to touch
When this world is so sterilized
Tryna watch the back of my heart, I was terrified
Uh, didn't even know it when I signed up (When I signed)
The sand keep goin', girl your time's up (Bitch, your time's)
Told her that the show is over
Girl, your lives' up
