midwxst

I swear they wanna see me fall
Writing verses in my classes
Blasting music through the hall
And they'll say I need assistance
Cause I don't need that at all
Put my whole arm in the rim
Because you know I'm born to ball
And the critics they can talk but I won't listen
On my own road and this shit bitch on a mission
Still with my family and my brothers, my division
Told them calm down
He don't want no static want no friction

Slide den
You know we're not fighting (bitch)
We keep them blades on us
Like Attack on Titan (okay)
Slide den
We know that you're hiding (bitch)
Try to run up on us
Hope you know that boy you dying (bitch)

Mercedes that shit lookin black
My niggas whippin them Jags
She said that she wanted a gift
I walked in the store and bought a Louis bag

These niggas wanna be me so bad
I know that I'm making them mad
And I know that shit cause they in my phone
Saying bro I wish I had that

Suffer in my silence
Get out my phone wildin'
Walking, no I'm stylin
Flyin over islands
Made my dreams reality
These niggas can't do the same
My niggas going to bring fatalities
If you keep bringing up my name
And I mean that shit on god
I ain't stopping, no I won't pause
I'm finna get all that attention baby
I finna get all that applause
Don't care about fitting in at all
Ain't stoppin no I won't stall
And I'm not picking up my calls
On the court bitch I'm gon' ball
