

(Perfect!)

No I don't like them boys
They can't even touch my status
Not gon' trip 'bout no hoe (No hoe)
My bitches, they the baddest
When you gon' pass the sword?
Let me know girl, you can have it
Been in my mind all day (All day), in my head you're reigning havoc
And I can't get you out but I wish I could
I know this shit goin' well but I'm gon' knock on wood
And I know secrets I won't tell even tho I could
My intentions are always good but they're misunderstood

She wan' see my place, she wan' see what's up
You know why you is shawty, you just tryna fuck, yeah
And there ain't nothing wrong with that 'cause I'm just tryna nut, yeah
I don't trust a soul so there's no way I'd fall in love, yeah

Been in my mind all day (All day), in my head you're reigning havoc

And I can't help but have you on my mind
The feelings make everything we do a waste of time
You don't know how you feel and that's alright
And you only know one thing and it's the fact that I fuck you right
Brand new chop, that heat
He want the .223's
This shit wanna fuck with me
And she got [?]
Choppa sing like that shit clean
If anyone fuck with me
I'll figure that shit too clean
'Lil bitch I'm the MVP
And that's on me
Barely [?] wish that I could stop
People in my DM's been asking me, "Drop"
Will me or your son that gon' pay that fee? Please don't talk
Yuh
