

## step back

midwxst

Telling lies to my face, running out of words to say  
Do the same shit every week and every single day  
Nothing ever seems to change, only pressing replay  
Everybody seems to leave, no one ever wants to stay  
I don't understand, what the fuck did I even do?  
Am I so fucking blind that I can't even pick up the clues?  
I might stop trying, 'cause I know that it's no use  
Staying in the house, I don't ever have shit to do  
My mind slowly sinks into a big ass abyss  
Try to say how I been feeling, but it never makes sense  
You always wanna say that you know me and what I been through  
But you ain't ever had a same feeling, been in my shoes  
You can never understand, you can never compute  
All the damage that you did to me and I did to you, yeah

Fucked up, I know  
Don't tell, don't show  
Take one more fatal blow  
Step back, do not get close  
Fucked up, I know  
Don't tell, don't show  
Take one more fatal blow  
Step back, do not get close

You don't wanna face the truth  
But we both know that that shit's overdue  
But, you always run away from your problems  
You make 'em all, but you never wanna solve 'em  
Who's that? Why the fuck would you involve him?  
Why's your phone ringing? Who the fuck is calling?  
That's a number that I do not know  
You're gonna go running back to him, that's such a low blow  
But in your head, I'm the best, and we both damn know  
That he is not like me, he is nowhere close  
One shot, I could end his life right now  
But, maybe should I shoot two, and watch him bleed out on the ground  
And now he's screaming out for help, now he's screaming, out aloud  
And I just realize what I did, but there's no going back now

Fucked up, I know  
Don't tell, don't show  
Take one more fatal blow  
Step back, do not get close  
Fucked up, I know  
Don't tell, don't show  
Take one more fatal blow  
Step back, do not get close

Step back, step back  
Step back, step back  
Step back, step back  
Do not get close  
Step back, step back  
Step back, step back  
Step back, step back  
Do not get close  
Step back, step back

Step back, step back  
Step back, step back  
Do not get close  
Step back, step back  
Step back, step back  
Step back, step back  
Do not get close
