Crazy

Mighty Oaks

Who would've thought
That we'd get where we are
And make it this far today
Kept getting up
To brush ourselves off
And never gave up, no way

And we're all on a ride
And we call it a life
Yeah, we're all on a ride
And we're calling it a life

Isn't it crazy
That we've made it this far
We are who we are today
Isn't it crazy
That we've made it this far
We all got something to say
And if a little bit goes a long way then
You gotta ask yourself what you got
Isn't it crazy
That we've made it this far
And it all could just go away

We're coming up
And we started so far
But never had a voice to raise
We've seen a lot
And at times it got hard
But never thought to run away

And we're all on a ride
And we call it a life
Yeah, we're all on a ride
And we're calling it a life

Isn't it crazy
That we've made it this far
We are who we are today
Isn't it crazy
That we've made it this far
We all got something to say
And if a little bit goes a long way then
You gotta ask yourself what you got
Isn't it crazy
That we've made it this far
And it all could just go away

Isn't it crazy
That we've made it this far
We are who we are today
Isn't it crazy
That we've made it this far
We all got something to say

Isn't it crazy
That we've made it this far

We are who we are today
Isn't it crazy
That we've made it this far
We all got something to say
And if a little bit goes a long way then
You gotta ask yourself what you got
Isn't it crazy
That we've made it this far
And it all could just go away
