

Endless Summer

Mighty Oaks

Let's burn one down when the sun comes up
These summer nights, they're not long enough
And it ain't over 'til tomorrow comes
Our bloodshot eyes on the morning sun

Will you come with me
See what we can see
City lights, country roads
Will you come with me
See what we can see
Tonight, let's go

Hot nights in the summertime
And we got no place to be
This town belongs to you and me
From sundown to sunrise
All these endless summer nights
They're yours, they're mine

Here's to us and all we've seen
The ups and downs and everything between
And the music, it shall never stop
So here's to us, the lucky ones

Will you come with me
See what we can see
City lights, country roads
Will you come with me
See what we can see
Tonight, let's go

Hot nights in the summertime
And we got no place to be
This town belongs to you and me
From sundown to sunrise
All these endless summer nights
They're yours, they're mine
