

One Shot

Mighty Oaks

Outside the rain is falling
And I'm soaked to the bone inside this house
The ghost here, she is howling
And she knows my soul inside and out
And she knows my soul 'cause she brought it about

One shot is all I've got
It's taking me far away
From the place that I love
One shot is all I've got
It's taking me far away
From the place that I love
That I love

The folks here take it easy
And it ain't so hard to smile anyway
We start now, the wind is howling
If I stand outfront I could smell the sea
If I scream out loud no one is near

One shot is all I've got
It's taking me far away
From the place that I love
One shot is all I've got
It's taking me far away
From the place that I love
That I love

One shot is all I've got
It's taking me far away
From the place that I love
That I love
