

Runaway Train

Mighty Oaks

Sometimes I just can't get my mind set straight
Two sides of the same coin pulling away
I don't know how much longer it will take
'Til the wheels come off of this runaway train
'Til the wheels come off of this runaway train

There's a side of me
That doesn't see the light
I try to lock it up
I try to keep it out of sight
There's a side of me
That I can't control
The only thing I know is
That I gotta let it go
Gotta let it go
Gotta let it go
Oh I know that I gotta let it go
Gotta let it go
Gotta let it go
Oh I know that I gotta let it go

The highest highs that I've ever known
They're often followed by the lowest lows
And I do my best to keep an even keel
So this runaway train don't lose its wheels
So this runaway train don't lose its wheels

There's a side of me
That doesn't see the light
I try to lock it up
I try to keep it out of sight
There's a side of me
That I can't control
The only thing I know is
That I gotta let it go
Gotta let it go
Gotta let it go
Oh I know that I gotta let it go
Gotta let it go
Gotta let it go
Oh I know

There's a side of me
That doesn't see the light
I try to lock it up
I try to keep it out of sight
There's a side of me
That I can't control
The only thing I know is
That I gotta let it go
Gotta let it go
Gotta let it go
Oh I know that I gotta let it go
Gotta let it go
Gotta let it go
Oh I know that I gotta let it go
