## **Shells**

## **Mighty Oaks**

The words that you write, they catch me in the morning light The lines that I read, oh they move me We tucked it inside, aura so fine Ooh it helps me, to find what I need

Take my hand ask me to stay You take the lead now and show me the way Fight for the love that you want in life Darling, you take my hand and be mine

Handful of shells, at home in my coat Tales of a walk, beach fire sparks Polaroid shots, exposed in the dark Ooh it helps me, to find what I need

Take my hand ask me to stay You take the lead now and show me the way Fight for the love that you want in life Darling, you take my hand and be mine

Take my hand ask me to stay You take the lead now and show me the way Fight for the love that you want in life Darling, you take my hand and be mine
