I took a whole lot of chances

Reminiscing in my mansion

Thinking back then in the bando I put the dope in her panties

Remember back then on the North side 50 bands in the suitcase

Free my big brother Kobe

That's the only nigga that threw me the 10k

We were so hot we could sizzle

Now I'm so cold like a blizzard

You think my life was a riddle

Till I send my niggas go and get them

I do this shit for my dawgs

We used to kick doors and all

Now we fuck hoes and ball

Now we fuck hoes and ball

You don't understand it

I took all these chances

That's why I move all my niggas to my fucking mansion

We came from nothing jugg a cutie smokin' onion

We came a long way from the bando smelling like funyuns

(Gone)
