

# Stay

Migos

When the plane come down in your town  
And we only in town for three days  
No matter how far I go, she always hold me down  
She say I always got somewhere to stay, stay, stay  
Always got somewhere to stay  
No matter how far I go, she always hold me down  
That's why everywhere I go I always save a plane

I told you once I ain't gon tell you twice  
Better back off my bitch young nigga or you might lose your life  
Just me and her ridin round in my two-seater  
We made plenty millions, that was the first time I showed her the egg beater  
Remember the time the police they lock me up and you bond me out  
Remember that time they wanted you to talk and you close your mouth  
That's why I fuck with you, I really can't say I love you  
But I do really fuck with you, like everything that you do and she know

When the plane come down in your town  
And we only in town for three days  
No matter how far I go, she always hold me down  
She say I always got somewhere to stay, stay, stay  
Always got somewhere to stay  
No matter how far I go, she always hold me down  
That's why everywhere I go I always save a plane

Rap game that's Birmingham, Alabama, Savannah, Atlanta  
Any city any place  
No matter where I go in the world  
I got a chick to keep a nigga straight  
When I call lil mama she come through  
Sacks full of cash we run through  
Fuck all day, fuck all night  
Where ever the fuck we want to  
I enjoy all the time that we spend, but it never seems to last  
Now I gotta get back to the cash

When the plane come down in your town  
And we only in town for three days  
No matter how far I go, she always hold me down  
She say I always got somewhere to stay, stay, stay  
Always got somewhere to stay  
No matter how far I go, she always hold me down  
That's why everywhere I go I always save a plane

No matter how far I go, lil mama she coming to get me  
She do what she gotta do, she independent  
I trust her, but I can't love her  
She know why young nigga a hustler  
Got a young nigga's back when I'm trouble  
Got the body of a goddess, Brazilian mixed with Scottish  
She exotic, she come from a island  
I can trust her in the trap, she ain't gon steal my dope  
If the feds kick the door I know lil mama won't fold

When the plane come down in your town  
And we only in town for three days  
No matter how far I go, she always hold me down

She say I always got somewhere to stay, stay, stay  
Always got somewhere to stay  
No matter how far I go, she always hold me down  
That's why everywhere I go I always save a plane
