

I miss your face

Miguel Bosé

Our first date was an empty hall
I heard you cry here comes my boy
I laughed and laughed and crossed that door
You said my smile was shinyfull

I miss your face I miss your jokes
I miss the days I miss your songs
Wish that you where always there
Wish that I'd known when

I miss your face I miss your voice
I miss those days so full of hope
Wish that you where always there
Wish that I'd known where

When justice wasn't fair enough
You stood up straight and facing God
You spoke out loud for everyone
That made you be so beautiful

Never ever felt alone
My heart keeps beat beat beating on
My life and faith are pure as gold
But need to learn how to be strong

I miss your face I miss your jokes
I miss the days I miss your songs
Wish that you where always there
Wish that I'd known when

I miss your face I miss your voice
I miss those days so full of hope
Wish that you where always there
Wish that I'd known where

I miss your face I miss your jokes
I miss the days I miss your songs
Wish that you where always there
Wish that I'd known when

I miss your face I miss your voice
I miss those days so full of hope
Wish that you where always there
Wish that I'd known where

You told me I'm again in love
I felt so jealous on the phone
But you had some bussiness in New York
So you asked me if I wanna join

I thought I wasn't ready then
I thought and thought and time ran off
I miss you guy, I miss you boy
I miss you

I miss your face I miss your jokes
I miss the days I miss your songs

Wish that you where always there
Wish that I'd known when

I miss your face I miss your voice
I miss those days so full of hope
Wish that you where always there
Wish that I'd known where

Our first date was an empty hall
I heard you cry here comes my boy
I laughed and laughed and crossed that door
