

## Nearsight (SID)

Miguel

Got stock now and a gun  
Watching TV  
And the news now  
All the summers I got to run  
Now I gotta face things  
I gotta do shit

Didn't see it at the time, the near sight of a low life  
How repetition  
Gets deeper  
I want to rage like I used to, but I never have time  
Too busy  
Erasing

Slow it down for me  
Slow it down for me  
I wanna  
Remember it just like this  
Slow it down for me  
Slow it down for me  
'Cause maybe I'll  
I'll never feel this way again

And breathe it in now  
Let me meditate  
We going in now  
Till you levitate

One day, I'll burn out like the sun (Sun)  
But not now  
Just let me roll one  
For all the habits I can't outrun  
And I pray I can make peace with the past  
'Cause tomorrow comes way too fast

I couldn't see it at the time, the near sight of the low light  
How salvation  
Gets bleaker  
So let's make memories tonight, I won't waste time  
'Cause I'm all in  
It's like you laced it  
With mines

Slow it down for me  
Slow it down for me  
I wanna  
Wanna remember you just like this  
Slow it down for me  
Slow it down for me  
'Cause maybe I'll  
I'll never feel this way again

Breathe it in now  
Let me meditate  
We going in now  
Till you levitate

Yeah

You hit me, now you feel like waking up  
For lost time, living life in the cut  
Long nights in my brain going nuts  
Lost souls in a robe with a blunt  
But buy the ticket, take a ride on a one-way  
Another tab on your tongue on a Sunday  
Holy Mountain, make the climb for the fun, hey  
Fuck it, we all know we gotta die someday

Slow it down for me (Yeah)

Slow it down for me (Yeah)

I wanna

Wanna remember it just like this

Slow it down for me

Slow it down for me

'Cause maybe I'll

I'll never feel this way again

Breathe it in now

Let me meditate

We going in now

Till you levitate
