

# Slow It Down

Miguel

Got stock now and a gun  
I'm watching TV  
And the news now  
All the summers I got to run  
Now I gotta face things  
I gotta do shit

Didn't see it at the time  
The near sight of a low life  
How repetition  
Gets deeper  
I want to rage like I used to  
But I never have time  
Too busy  
Erasing

Slow it down for me  
Slow it down for me  
I wanna  
Wanna remember it just like this  
Slow it down for me  
Slow it down for me  
'Cause maybe I'll  
Never feel this way again

Breathe it in now  
Let me meditate  
Going in now  
Until you levitate

One day I'll burn out like the sun  
But not now  
Just let me roll one  
For all the habits I can't outrun  
Pray I can make peace with the past  
'Cause tomorrow comes way too fast

I couldn't see it at the time  
The near sight in the low light  
Salvation  
Gets weaker  
But let's make memories  
Tonight I won't waste time  
'Cause I'm all in  
It's like you laced it

Slow it down for me  
Slow it down for me  
I wanna  
Wanna remember you just like this  
Slow it down for me  
Slow it down for me  
'Cause maybe I'll  
Never feel this way again

Breathe it in now  
Let me meditate

Going in now  
Until you levitate

(Yeah)

You hit me now you feel like making up  
For lost time living life in the cut  
Long nights in my brain going nuts  
Lost soul in a robe with a blunt  
But buy the ticket, take the ride on a one way  
Another tab on your tongue on a Sunday  
Holy Mountain, make the climb for the fun, hey  
Fuck it, we all know we gotta die someday

Slow it down for me  
Slow it down for me (yeah)  
I wanna  
Wanna remember you just like this  
Slow it down for me  
Slow it down for me  
'Cause maybe I'll  
Never feel this way again

Breathe it in now  
Let me meditate  
Going in now  
Until you levitate
