

Thinking Out Loud

Miguel

Let the world crash and burn, I'm down with it, down with it
Another round, come around, I'ma drown in it, yeah-yeah
Light it up, breathe it in, and get high-igh-igh
Somersault, sunset, sunrise, with you
'Cause sometimes, you gotta fall back
Before you move forward
So let's bake till we sunburnt (oh)
And rage through the thunder (oh)
Wake me when it's over (yeah, yeah)

How long will it last? (Will it last)
Triple that, I can't get enough
Sipping on lightning in a glass (yeah-yeah)
Moments with you
How long can it last? (Can it last)
I could do this forever
'Cause I'm lightning in a hat (yeah-yeah)
Moments with you

Inner days, let the days come crashing (come crashing)
Let the waves dissipate like magic
Only way to escape is to face all the pain
Elevate everything, move balance

How long will it last? (Will it last)
Triple that, I can't get enough
Sipping on lightning in a glass (in a glass)
Moments with you
How long can it last? (Can it last)
I could do this forever
'Cause I'm lightning in a hat (in a hat)
Moments with you

City locked in, seven months, going loco
Daily up and down, life switches like a low-low
Mask on, fuck it, mask off till you catch COV
Black lives matter, black woman on the ballot, vote
Scrolling through the summer, fake news, propaganda

How long will it last? (Will it last)
Triple that, I can't get enough
Sipping on lightning in a glass (in a glass)
Moments with you
How long can it last? (Can it last)
I could do this forever
'Cause I'm lightning in a hat (in a hat)
Moments with you
