

Larger Than Life

MIIA

I'm tryin' to let the feeling settle in
'Cause we larger than we ever been
Long hours on my cell phone
Love letters for text messages

Say I stole your heart, yeah, I bet I did
And I don't care what the weather is
Supersize, I show you what different levels is

Yeah, we're larger than life
It's written in the sky
Your signal's hittin' my heart just like a satellite
And in the moment I reach ya, the world ignites
There's nothin' bigger than us
'Cause we're larger than life
Larger than life

We're larger than life...
We're larger than life

All I know is that it feels right
When I'm with you I just know it be a good night
I want it all and I ain't tryin' to be the rude type
But you know love messy like a food fight
When I see you I need you baby it's all sight
And they can hate from the bleachers baby, they off sight
I feel a hundred feet tall, I shoulda' balled, right?... right

When it's brighter than the sun
And you know that it's true
You shine bright like your smile and the stars and the moon
When you know this is the one
And all I know is that it feels right, yeah

Yeah, we're larger than life
It's written in the sky
Your signal's hittin' my heart just like a satellite
And in the moment I reach ya, the world ignites
There's nothin' bigger than us
'Cause we're larger than life
Larger than life

We're larger than life...
We're larger than life

So come take the world with me
As big as we wanna be
No stoppin' eternity
Once we take off, we ain't comin' down
Look out 'cause we're upward bound
And nothin' can break us now

Yeah, we're larger than life
It's written in the sky
Your signal's hittin' my heart just like a satellite
And in the moment I reach ya, the world ignites
There's nothin' bigger than us

'Cause we're larger than life
Larger than life

We're larger than life...
We're larger than life
