

All The Same

Mika

Here we go again
You say heartbreak leaves you feeling so tender
She's pissing the night away again
Mixing the sorrow with your pills on a bender
Oh believe me
Nobody ever felt so sad
Oh believe me
'Cause there's no words when you feel that bad

Dancing in the pouring rain
Crying, but it's all the same
No one's gonna see your pain
When you're crying in the pouring rain

All the same
Is it everything you wanted?
Caught up in a wicked game
All the same
When you're looking at the future
Only wanna run away

All the same
Is it everything you wanted?
Caught up in a wicked game
All the same
When you're looking at the future
Only wanna run away

All the same
Is it everything you wanted?
Caught up in a wicked game
All the same
When you're looking at the future
Only wanna run away

All the same
Is it everything you wanted?
Caught up in a wicked game
All the same
When you're looking at the future
Only wanna run away

Here we go again
But don't tell me
'Cause I'm not really missing
Pissing the night away again
You think you're better, but you're only forgetting
Oh believe me
Nobody ever felt so sad
Oh believe me
'Cause there's no words when you feel that bad

Dancing in the pouring rain
Crying, but it's all the same
No one's gonna see your pain
When you're crying in the pouring rain

All the same
Is it everything you wanted?
Caught up in a wicked game
All the same
When you're looking at the future
Only wanna run away

All the same
Is it everything you wanted?
Caught up in a wicked game
All the same
When you're looking at the future
Only wanna run away

All the same
Is it everything you wanted?
Caught up in a wicked game
All the same
When you're looking at the future
Only wanna run away

All the same
Is it everything you wanted?
Caught up in a wicked game
All the same
When you're looking at the future
Only wanna run away

On and on, on and on, but it's all the same
We're just caught, we're just caught in a wicked game
On and on, on and on, but it's all the same
We're just caught, we're just caught, in a wicked game
