

## Dreams

Mika

Hear me whisper in the dark  
Don't let your heart race, don't let it start  
Hush your voice, don't make a sound  
There are floating dreams around

Dreams are only dreams when they don't see reality  
Tell me what you dream about, and I'll bring it to be  
Let yourself be taken over even if you're scared  
Dreams become your nightmare when your fears are never shared  
When your fears are never shared, when your fears are never sha  
red

I'm just living on a dream river  
I'm just living on a river of dreams  
I'm just living like a daydream believer  
I'm just living on a dream

I'm just living on a dream  
I'm just living on a dream

Now you're floating on your own  
Where suspended reasons go  
Nothing wrong, nothing right  
Nothing concrete, only light

Dreams are only dreams when they don't see reality  
Tell me what you dream about, and I'll bring it to be  
Let yourself be taken over even if you're scared  
Dreams become your nightmare when your fears are never shared  
When your fears are never shared, when your fears are never sha  
red  
When your fears are never shared

I'm just living on a dream river  
I'm just living on a river of dreams  
I'm just living like a daydream believer  
I'm just living on a dream

I'm just living on a dream  
I'm just living on a dream

Living on a dream  
Living on a dream
