

Feels Like Love

Mika

Is this how it is
After just one kiss
Did you really think
That I invented this

Was it you or me
Or the mess we made
Did we crash too hard
That's the risk we take

Did I run to you
Did you run to me
If we wait too long
Then we'll never see

We could walk away
And just like others would
Or we live our life
Like we know we should

Cause it feels like
Cause it feels like love
Yes, it feels like love to me

It's like finding gold
Buried in the shore
Once it's yours to hold
All you want is more

Baby, look at us
Any fool could see
I was made for you
And you were made for me

OK, tell me no
We could play that game
Waste a lot of time
But still feel the same

We could walk away
And just like others would
Or we live our life
Like we know we should

Cause it feels like
Yes, it feels like love
Cause it feels like
Yes, it feels like love
Cause it feels like
Yes, it feels like love
Cause it feels like
Yes, it feels like love

And would you know if it's love
Would you know if it's love
Would you know if it's love at all

And would you know if it's love
Would you know if it's love
Would you know if it's love at all

Cause it feels like
Yes, it feels like love
Cause it feels like
Yes, it feels like love to me

Cause it feels like love to me

This is how it is
After just one kiss
Do you really think
That I'm inventing this

Cause it feels like love to me
