

Nicotine

Mika

I wander
Serene like a nicotine dream
Babe, you got me flying like a cloud that whispers by
Not to scare the sky
The sun
Face it like a four-day daisy
Yellow is the power in the day that you shine bright
Then covering your face from the frosty night

Talk, talk, talk, talk to me
Talk, talk, talk, talk to me

Lover
Lover, if you ever come back
Know that in my heart is a sun that's shaking
Trembling, waiting for you

Open-eyed
Take another toke and we'll keep on talking
Open-eyed
Whatever it takes just to stop you walking
Open-eyed
Walking on your road and away from me
Open-eyed
So sit yourself down, take a toke and talk to me
Talk, talk, talk, talk to me

I wonder
Your words between my fingertips
Like embers on my chapstick lips sharply burning
Words leave me yearning for you
Lover
Of every single thing you say
Phrases floating in their nicotine waves
Smoke me under
You spoke
Now I follow only you

Talk, talk, talk, talk to me
Talk, talk, talk, talk to me

Open-eyed
Take another toke and we'll keep on talking
Open-eyed
Whatever it takes just to stop you walking
Open-eyed
Walking on your road and away from me
Open-eyed
So sit yourself down, take a toke and talk to me

Open-eyed
We can talk forever, let the world keep spinning
Open-eyed
All of my ambitions are no longer winning
Open-eyed
When the conversation ends, we're lost forever
Open-eyed

So sit your body down and then we'll talk together

Talk, talk, talk, talk to me
Talk, talk, talk, talk to me

Open eyed
Take another toke and we'll keep on talking
Open-eyed
Whatever it takes just to stop you walking
Open-eyed
Walking on your road and away from me
Open-eyed
So sit yourself down, take a toke and talk to me

Open-eyed
We can talk forever, let the world keep spinning
Open-eyed
All of my ambitions are no longer with me
Open-eyed
When the conversation ends, we're lost forever
Open eyed
So sit your body down and then we'll talk together
