

Ready to Call This Love

Mika

I'm afraid of the world
Losing love in the dark
Every time that I move too fast, I fall apart
But I think you're the same
And I know that you're scared
Think too much of the end and we will never start

We still sleep with the light on
So afraid it'll go wrong

Take your time if you need it
But don't wait when you know you feel it
And you're ready to call
Ready to call this love
Don't speak if you don't believe it
But please say those words if you mean it
And you're ready to call
Ready to call this love

I don't know what to say
That's unusual for me
First step is the hardest one you'll ever take

You can see sparks with the light on
Oh, let's be brave, turn the light off

Take your time if you need it
But don't wait when you know you feel it
And you're ready to call
Ready to call this love
Don't speak if you don't believe it
But please say those words if you mean it
And you're ready to call
Ready to call this love

Are you ready yet?
Are you ready yet? (Are you ready to this love?)
Are you ready to call
Ready to call this love? (Are you ready to call this love?)
Are you ready yet?
Are you ready yet? (Are you ready to call this love?)
Are you ready to call
Ready to call this love? (Are you ready to call this love?)

Take your time if you need it
But don't wait when you know you feel it
And you're ready to call
Ready to call this love (Are you ready to call this love?)
Oh, take your time if you need
But don't wait when you know you feel it
And you're ready to call
Ready to call this love (Are you ready to call this?)
Don't speak if you don't believe it
But please say those words if you mean it
And you're ready to call
Ready to call this love

Are you ready to call, ready to call this love?
Are you ready?
