

# Sanremo

Mika

Light brown skin  
Lips like Campari  
And words like soda  
Can I come over?  
Just let me in  
I wanna go where  
The nights are blinding  
The sun keeps shining

If I could, I know where I'd be  
In a little town in Italy  
Close your eyes, come away with me  
Tomorrow we will be

Sitting by the seaside  
Drinking up the sunshine  
You're here, so why don't we go  
Dancing in Sanremo?  
We could be there in a couple of hours  
To the place with the yellow flowers  
Somewhere only we know  
Sunset in Sanremo

To feel like this  
Is one in a million  
A suspended moment  
Can we seal it  
With a tender kiss?  
Out of a movie  
Made by Fellini  
Love that you need me

Over there you shine like a star  
Doesn't even matter who you are  
Hold my hand and we'll travel far  
Close your eyes and we will be

Sitting by the seaside  
Drinking up the sunshine  
You're here, so why don't we go  
Dancing in Sanremo?  
We can be there in a couple of hours  
To the place with the yellow flowers  
Somewhere only we know  
Sunset in Sanremo (Sunset in Sanremo)  
Sunset in Sanremo

There you can shine like a star  
There's a place for you, whoever you are  
I know you're tired of the rain  
But tomorrow we'll be

Sitting by the seaside  
Drinking up the sunshine  
You're here, so why don't we go  
Dancing in Sanremo?  
We can be there in a couple of hours

To the place with the yellow flowers  
Somewhere only we know  
Sunset in Sanremo  
Sitting by the seaside  
Drinking up the sunshine  
You're here, so why don't we go  
Dancing in Sanremo?  
We can be there in a couple of hours  
To the place with the yellow flowers  
Somewhere only we know
