

You Made Me

Mika

You can be difficult
I can be mean
We can be lovebirds
Or sting like bees
Walking a wire
In danger of falling from grace

A minute of pleasure
An hour of pain
You reel me back in
With your physical thing
Cause sometimes you're worth
All of the things that I hate

Oh, should I let go?
My heart says yes but my head says no

So I'm black and I'm blue
And I act like a fool
Cause you made me crazy
And I'm up and I'm down
Turning into the clown
That you made me
Maybe that's what you're waiting for
You make me want you more

You see it black
And I see it white
You're never wrong
And I'm always right
We argue the point
My point is to disagree

And I, I'm better off dead
I bet my personality is in your head

So I'm black and I'm blue
And I act like a fool
Cause you made me crazy
And I'm up and I'm down
Turning into the clown
That you made me
Baby that's what you're waiting for

Baby you played me
But you'll never make me
Kiss you back and fall apart
I don't have to do it
Just cause you made me

Black and then blue
I won't act like a fool
Cause you made me, baby
I get up, I get down
But I won't be the clown
That you made me, baby
That's what you're waiting for

Black and then blue
I won't act like a fool
Cause you made me, baby
That's what you're waiting for
I get up, I get down
I don't act like the clown
That you made me, baby

I get black and then blue
I won't act like a fool
Cause you made me, baby
I get up, I get down
But I won't be the clown
That you made me, baby
That's what you're waiting for

Over you that's what you...
