

Stop Falling In Love

Mike And The Moonpies

I've seen you with him quite a few times
I know he's been comin' around
And he's gonna ask you to marry him
I hear it all over town

But come along, little darling, you're the precious kind
Put your hand in mine once again
He's gonna steal all your lovin' and break your heart
Stop fallin' in love with him

I've watched him dance and leave you on the floor
And I've seen him leadin' you on
And if I had my chance to hold you once more
I'd never let you out of my arms

But come along, little darling, you're the precious kind
Put your hand in mine once again
He's gonna steal all your lovin' and break your heart
So stop fallin' in love with him

Come along, little darling, you're the precious kind
Put your hand in mine once again
He's gonna steal all your lovin' and break your heart
Stop fallin' in love with him
