

2AM

Mike Dimes

Let me know why these niggas so so-so
Bad bitch and she love to do coco
Fofo in the back of the Volvo
Let a nigga know, all my niggas go loco
I'm in the back of the room with a ten
My little bitch, she about 5'10"
Low whoop, she don't need no friends
Got juice and my niggas got gin

That's why she goin' up, fuck in the mornin' and fuck in the night
Smoke wood in the mornin' and sipping on Sprite
Don't wanna go in 'cause she holdin' me tight
Well baby, that shit's all right
I can't just vibe with you and get through all these days
Only few 'cause all my niggas change
Tell the truth and please remain the same
I promise that we'll be straight, yeah, we'll be straight

Too much shit on my plate
Too many niggas in my face, bills in my face
Blue-green shit, Two-Face
I'm gettin' paid everyday, my life is fate
Niggas wanna hate, too late
Sold out shows everyday, all day, every day
Imma go and beat it one way
And Imma go and spend it all day
I flex out of habit, they countin' the cabbage, these 24 karots make niggas
look tragic
I feel like I'm Khaled 'cause we is the best
I'm chasin' my dreams so I don't get to rest
I'm runnin' to go and I'm chasin' the chest
She wanna come over and feel on my chest
[?] do not deserve so I don't get to rest
I'm 2 A.M. bobbins, they feel like I'm blessed, I feel like I'm blessed

I got two bitches in the backroom
Smokin' and the gas, need a vacuum
Finding new hoes in my city, white bitch with some fat ass titties
She said she wanna claim me, I don't really do that
Beggin' for the dick, actin' like a brat
Back here bitch, and she love when I hit it from the back
Yeah, I love my dick tatted, she a hater
Back to the white bitch, blowin' in my phone all night, can't take it
Praying every night that Oso makes it
Tryna maintain my health and stay fit
Fucked a model bitch named Brit', can't stop, won't quit
Cuban bitch whippin' up a brick
God damn, she in love with the flow
God damn, I'm in love with this hoe
God damn, she might be my so-so

Let me know why these niggas so so-so
