

Toast/Outro

Mike Dimes

Forty minutes exactly, I got you
We should take a toast, yeah
We should take a toast
I think that we should take a toast, yeah
We should take a toast

We should take a toast, focus on the money, not the hoes
Everything is different when you focused on them Os and the bros
I keep 'em on the side with me
It's not a lot but I could promise they gon' ride for me
Another side of me been poppin' out when I got them dividends
Lady friends never liked me 'til I got them Benjamins
Drinkin' Henn', momma think I waste all of my time, but it's fine
I went from Mike G to Mike Dimes, I'm in my prime now
Got a different mom now
Used to ride the waves, now I got my own tide now
You just a demon, got me switchin' demeanor
Vision gettin' cleaner, Serena
The way I'm hittin' rackets feel like I'm a leader (Damn)
But how he do it like that?
Niggas thought I killed the hook until I hit that right jack
Bitches used to diss me but I got 'em comin' right back
Or I might just get my nigga Ye because he like that
Lately I been in my zone, plannin' on leavin' my home
Showin' my bro who has grown
Changin' my tone, no time to buy a car, time to buy a drone
For this music shit, time to do this music
Got no time to play, I gotta stay up on my ownership
I been gettin' bread, wonder if I'm fed
Turned to a leader, I used to be led
Life is a movie, just watch all the credits
I promise that you'll see somethin' we did
Time to boat, got no time to boast
'Cause I did a lot, no contemplatin'
So we should take a toast that we made it

Take a toast, we should take a toast (Yeah, ayy)
We should take a toast, we should take a toast
My nigga, we should take a toast
We should take a toast, we should take a toast
We should take a toast, I think that we should take a toast
We should take a toast, we should take a toast (Yeah)
We should take a toast

We should take a toast, I don't depend up on my momma no more
And to the facts that we can't right none of our wrongs no more
The green light was shinin' on me, now we all on go
My life so fast, niggas think that I'm slow-mo
I never had a promo, my thanks is to my bro-bro
Because there wouldn't be a Dimes if I didn't have a Cinco
I was a seed that didn't grow, but now the fiends wantin' more
Of my lyrics, think they boost my self esteem on the low
So here we go, now I'm all on go
And I'm not gonna stop 'til the day I go
So I got my soul inside my vessel
Not gon' stop, I'm on next level
Get that Rollie, got that bezel

Got my homies, got my fellows
And they see me, they say, "Hello"
When they see me, 'cause they watch me on my TV
And I gotta stay one hunnid, half these niggas didn't believe me
And they didn't see this comin', make them wonder like they Stevie
Now I'm posin' with my PP on the 'Gram
Sayin', "You can suck my dick if I ain't ever call you fam'," like, damn

Ayy, we should take a toast, ayy, we should take a toast
We should take a toast, we should take a toast
My nigga, we should take a toast
We should take a toast, yeah, we should take a toast, yeah
We should take a toast, we should take a toast
I think that we should take a toast
My nigga, we should take a toast, let's take a toast
