

Fall In Line

Mike G

Why you frontin who you stand behind
When you gon decide, gon make up your mind
Fall in line, you can fall in line
Fall in line, you can tell em fall in line

Game so cold when you met me
I need everything you got nothing less
Do your best to impress me
Want the next thing to last but you testing
You want the last thing to be just like the next
Please know they respect it when you next to me
That ain't got the same effect as me
You just wanna see the best of me
How you make it feel so electric
Watch your step don't test it
I can never let them play me
So much to say I can't let it escape me
But could sell it state to state
See, no paper could make or break me
What you negotiate you make em pay see
What I hold ain't got no safety
I tell you get home safely
G's goes so well with greatness
Don't cross the line or fall behind know your place
So much to say
I can't let it escape me
Or forget my place
Don't say we can't make it
Or tell me what you can't do
If I don't lead then how can I be an example with that
It's a fact that I win cuz I plan to

Why you frontin who you stand behind
When you gon decide, gon make up your mind
Fall in line, you can fall in line
Fall in line, you can tell em fall in line

Why you frontin who you stand behind
When you gon decide, gon make up your mind
Fall in line, you can fall in line
Fall in line, you can tell em fall in line
