

Yeah, yeah, yeah, yeah

I came mixed with fake energy  
Homies with a heart, it stay here with me  
I wear it all on my sleeve  
So it's more than advice, you can take it from me  
Name the price, we can take it to C's  
I caught your wave, it's so contagious  
How do you attain what's way out your league?  
They can't relate, they think so basic  
Liquor cases, ounces of weed  
She just waitin' to bounce, we could leave  
But the game's so strong, break it down to a knee  
Only like goin' out when it's peak  
Past man ain't a mountain to me  
I don't swim in American waters  
I'm not goin' out to the beach  
I'm complex, not complicated  
My campaign, no need for a speech  
Reimagined their Jordan 3s on my feet  
Closet deep, need an accent when I speak  
Just to read more Cherie, Genevieve  
Look up, saw your face lookin' right  
We know the sun rise in the east  
You keep breakin' the peace  
Feel like you got so much hate here for me, so often you say

This ain't the time nor the place  
Why does it call for debate?  
Can't help but stare when you walkin' away  
Hittin' crossfire, you ain't walkin' away  
Go where you never been, where you wanna stay?  
So many problems you can't often escape  
Tryna cut it off, cause I know I'm in LA  
I vote trees that hit so hard  
Got her lookin' at me like she thought it was lace  
Show you what I mean in authentic ways  
Tropical island, waterfall you could bathe  
I hit pause on the play  
You take time, give me all of your day  
Me and you in a room full of strangers  
Still feel like it's a common space

I feel good today  
Tell me where could we take this, I sit still and still  
There's times I just couldn't wait  
I feel good, I feel good today  
You would if you could relate  
I know that they should be hatin'  
I feel good, I feel good today  
Tell me where could we take this?  
I sit still and still as times  
I just couldn't wait, I feel good today  
What if you could relate?  
I know that they should be hating, I feel good

Yeah, yeah, yeah

Hey, you say fight for this, who am I fighting with?  
We can turn down the lights a bit  
You say I act so trifling, uh  
And I put you through all types of shit  
Taking pics of the girls that I'm often with  
Then I hopped in the Benz and they caught wind  
Then some caught feelings, some's just tempted  
Oh, so soon, how do y'all forget?  
So green, all taunt with envy, all  
Added to a list of accomplishments  
I might prefer that they all forget me  
Through the mistreatment I'd often get  
Things that you caught me with  
Mixed with the things that you thought he did  
Main thing that taught me is know how much of your heart you're offering  
Not one for conversation  
Gotta face it upon my statements, there's no drought in information  
Time don't stop when you're contemplating  
I can't be all of the places  
Frustrated when I show my face  
I take no time for breaks  
I know that you've been waiting  
I can't wait but I've been floating like a magician  
Yes, you controlled it, hoping this workout for the moment  
Workout like it's supposed to, I told you that I'm a stand-up guy  
Babe, why you taking this as a joke?  
Your skin look good as my necklace golden  
Rolling and rolling, make you feel like you took off into orbit  
My place, the best space for it  
My flight, don't land till the morning  
My place, the best space for it  
My flight, don't land till the morning  
I should be flying Air Jordan, I should be flyin' Air Jordan  
My flight don't leave till the mornin'  
Where can you see me?

I feel good today  
Tell me where could we take this, I sit still and still  
There's times I just couldn't wait  
I feel good, I feel good today  
You would if you could relate  
I know that they should be hatin'  
I feel good, I feel good today  
Tell me where could we take this?  
I sit still and still as times  
I just couldn't wait, I feel good today  
What if you could relate?  
I know that they should be hating, I feel good

Floating like a magician, controlled it  
Hoping this work out for the moment  
Work out like it's supposed to  
I told you that I'm a stand up guy  
Babe, why you taking this as a joke?  
Your skin look good as my necklace golden  
Rolling and rolling, make you feel like you took off into orbit  
My place, the best place for it  
My flight don't land till the morning  
My place, the best place for it  
My flight don't land till the morning  
I should be flying Air Jordan, I should be flying Air Jordan  
My flight don't leave till the morning  
Where can you see this going?
