

# King of the Hill

Mike G

Yo  
Said we gon ride  
We gon ride  
If you got a problem you can meet me outside, say  
Aye, Mike G

I know problems come in twos  
The world won't give you a break  
The course of action you take is bigger than your mistakes  
If you want you can be great. It's not as easy as words  
And mine start to slur  
But maybe it's all this energy in me that's got me thinking  
That we should leap across a lake vacation for a weekend. I'm h  
oping that my timings great and if it ain't what are you seekin  
g? Cause, if we can't relate, like if you can't meditate and se  
e through all the hate  
No need in chasin clouds if we can't associate  
If you one of em you can't tell the difference between the fake  
s  
I never mean to be condescending with my language  
Anything basic, I re innovate

That's exactly how it ends when whoever stays wins its called k  
ing of the hill it's a game with no friends. We play over and a  
gain I stand and defend. With my head held high and my face aga  
inst the wind  
So which path would you choose if you knew you couldn't lose. W  
hat do you think is gained when you play by the rules? learn so  
mething new, looking for new views. Say there was someone super  
ior I'd only wonder who

We gon ride  
We gon ride  
If you got a problem you can meet me outside  
If you can meet me outside

Maybe it's all this Hennessy in me that's got me speaking a lit  
tle less than proper if I say it then I mean it  
The music never stops, or you suffer like presidents in impeach  
ment  
You hope for better not knowing wherever you're going you're co  
nsidered beyond reason. But just cause they say no doesn't mean  
you can't achieve it  
Just cause it wasn't planned it doesn't mean I wasn't thinking.  
And waiting for someone to understand you is like hoping your  
winter will be as just as bright as spring is

That's exactly how it ends when whoever stays wins its called k

ing of the hill it's a game with no friends. We play over and a  
gain I stand and defend. With my head held high and my face aga  
inst the wind

So which path would you choose if you knew you couldn't lose. W  
hat do you think is gained when you play by the rules? Learn so  
mething new, looking for new views. Say there was someone super  
ior I'd only wonder who

We won't stop

Don't try blocking if you ride with me imma see you at the top
