I said, ow
Said we ain't got to move fast just slow it down, now
I take my time with it
Take my time with it
Take my time with it
Ow

I take my time with it
Take my time with it
Take my time with it

I'm at the store when they open up
Play the role like you know what's up
It's going up if they think they rolling over us
You had yo chance that's sad
Now she so bad that
I had to put her poster up
Heart froze but the coldest touch
I don't know what they told ya but my focus is on you
Getting comfortable
I'm an expert with the stunt moves
Do what you wanna do
Jump in this Benz instead of the conclusions you be jumpin to
Porsche engine make the trunk roar
I keep a key for the front door
I try to leave but you want more
I know you want more
Porsche engine make the trunk roar
I keep a key for the front door
I try to leave but you want more
I know you want more

I said, ow

Take my time with it
Take my time with it
