

# Overdrive

Mike G

I'm bored of games, you fake money  
I'm on board to make you skate money  
Animosity towards the president man, I hate money  
Make more of yourself than you can make money  
I'm qbert on the block, I stay jumpin'  
That's bass like when 808s come in  
Rock star on the walk of fame running  
Imma need a couple bands, I should let em play for me  
I can't tell if music is getting away from me  
Might take you to this place, you couldn't escape from it  
You can make it to Oz, what would you take from it  
I'm just trynna keep you in line, wait for it  
Gotta segregate if you gettin hate for it  
I'm still on the roll when I ain't touring  
And if it's war then behind bars you imprisoned  
Meet the mortician or ask for permission  
You lucky, you just opened up a limited edition  
Dare devil vibrations, I'm seeing with different vision  
Dealing with unruly, you fail to move me with superstition  
In addition you been afflicted, watching that movie living  
It's truly written pay dues and view your subscription  
Tell me, if you don't get the message like it's encrypted  
This sentence is not meant to keep you imprisoned  
But like, in an awkward position, you play the victim  
If you can get in the club, meet me inside  
My visions enough to see through facades  
Living gets rough if you can't beat the odds  
But hold your head up when you speaking to gods  
More than a load of brash and bold statements  
This is, no witness frozen cold cases  
Rhymes fantastic forcing forgiveness  
They cheering for that mental shit, like go crazy

You got me going crazy now  
I hate when they try to play me out  
You gon' wish I never went into overdrive  
Blowing out your speakers while we blowing out your minds

All of this talking but you not flawless  
I don't even really know where my thoughts is  
They'll do whatever to put us in boxes  
Just ain't right, way to toxic  
You've been sitting, watching the time pass  
Only an hour left, watching them all crash  
Victim, I've been one  
Following our own so we live long  
Why you wanna judge, what I did wrong knowing you're sinning  
Look at how they lie to get in better positions  
Plus all of the people that the government's killing  
Collecting all their valuables and homes for a living  
Loot or be looted, I might loose it  
What's the conclusion, strong and I prove it  
All I been through, all us been through it  
But it's up to you, how you choose to move through it  
Trynna stay sane while swimming in a pulpit  
Bloodbath, ain't no rules to it  
Said I'd be a legend way before y'all knew

Still got to switch the gear up, gotta go harder  
Bout to hit the game, like that '08 Carter  
Making more green than a high-grade farmer  
We all got our lowest, weed is my Lois  
Rather, my Lotis, always want to rage but I took my control of it  
I've done told you for a while I've been over this, over time  
Working hard, I hope it's fine  
Never really know, but I feel it's mine  
Yeah, I'm about to blow, y'all are going to feel this mine  
Guess I'm trying to learn just to feel the mind  
Ask me how I'm living in this field of mine  
Yeah I'm bout to kick it into overdrive

You got me going crazy now  
I hate when they try to play me out  
You gon' wish I never went into overdrive  
Blowing out your speakers while we blowing out your minds
