

Gotta get to it, okay, keep it cool, it's okay  
Everything gon' be alright and you knew this, okay  
How I do it, not the latest, it's my newest, okay  
What I do is true, it may be new to you, it's okay  
And no, you won't make us break now, can't lay down  
Here we go on the way now, make a way now  
Heard you sayin', watch what you say, what you say  
Heard you sayin', watch what you say, what you say now

Live extravagant, we back with a passionate, but you know  
This ain't average, it's the plan of attack, it's just how we roll  
And for show, after show, I just been rollin' and rollin'  
And my hopes, is that I don't end up fallin' and on the ropes  
All I know, gotta stay balanced and focused and in control  
Been administered this challenge, I know I accept  
I've been up under the scope, story told  
Of a person that gave a name to a rose  
How it comes and how it goes, money flow  
When it's down, gotta keep it on the low  
Money goes, but you know that our spirit never broke  
I got a general soul, you know the story that's told  
Another king with a dream like we ain't seen this before (Yuh, yuh)  
This ain't my life, I left it all on the floor  
In my bag like sleepovers, I'm in the studio  
I might hold it open for you, but I speed through open doors  
The king shot down, couldn't catch him before the fall

Gotta get to it, okay, keep it cool, it's okay  
Everything gon' be alright and you knew this, okay  
How I do it, not the latest, it's my newest, okay  
What I do is true, it may be new to you, it's okay

No, you won't make us break now, can't lay down

Heard you sayin', watch what you say, what you say (Yuh, yuh)

I hate to say it twice, I'ma leave it all on the stage tonight  
Won't play no games tonight, I might, but I light the flame tonight  
You find I'm the patient type, that's the light that I follow this phase of  
life  
Though I'm not living by the most righteous of qualities, get so high  
Although I know they built this by design  
I would say that it's game time, but now it's so  
It may be my pride, make us think we overqualify  
We be acting wild, like Saturday night, going live  
Go to war, like it's four blood diamonds over mine  
You know what it means, you step over that line  
Came a time, it's so divine, and I've been so alive  
It was Tony Hawk underground, even though we overgrind  
If it's a spot at the top, somehow I just know it's mine  
We was Rockefeller hype, I used to rock mine oversized  
How we feel when we fly like the pilot over mines  
It's a feeling I can't describe, just come and sit inside

You ain't gotta zoom, It's okay, or speak through it, okay  
I might swerve from left to right, and you knew this, okay  
I'mma keep you safe when we moving, okay  
This ain't nothing new, and you knew this, okay

No, you won't make us break now, can't lay down  
Here we go on the way now, make a way now  
Heard you sayin', watch what you say, what you say (Yuh, yuh)  
Heard you sayin', watch what you say, what you say now (Yuh)  
No, you won't make us break now, can't lay down (Yuh)
