

Stripper Names (Interlude)

Mike G

What's yo real name and not your stripper name
Say what's yo real name and not your stripper name
What's yo real name and not your stripper name
Say what's yo real name and not your stripper name

When nights get cold I need her
Don't make too much noise in the morning
She is a light sleeper
I need a... just a moment keep it going
Might be the... way the light hitting them angles
You remind me off... my Beamer
Rims are polished shine it up
See that watch and ice it up
Invest before the price is up
Might be a good idea
I know you shining baby... see ya

What's yo real name and not your stripper name
Say what's yo real name and not your stripper name
It's part of the game girl don't be ashamed
I know you gotta man but shit I gotta plan
So what's yo real name and not your stripper name
