

This One

Mike G

No one ever said we'd take it this far
Who else you know can do it like this y'all

I might be too cool with this one
I know what to do for this one
I'm gettin' in my groove for this one
I got a new attitude for this one

I'm taking them to school with this one
Get these kids to play by the rules with this one
It's obvious that they copy my moves
Lottery player confidence, I ain't gon lose with this one
This position isn't to abuse
Although I know at times you gotta take food to get some
Fuck it, break out the new shoes for this one
In which you may really have to choose for this one
If it's fit then, I keep content with this one
If it's chicks then, I keep me a list to pick from
I hardly lie to women and never for income
I shine, you ain't never seen this son
Your vernacular ain't crackin' bro, I'm playin' with big puns
What's a chance, if you don't risk one
I had to make pennies the harder way hate if I ever missed one
I'm penny hardaway, making magic with this one

I might be too cool with this one
I know what to do with this one
I'm getting in my groove for this one
I gotta new attitude for this one
Imma switch the mood for this one
Said, I know what to do with this one
I'm gettin' in my groove for this one
I gotta new attitude for this one

This far, this far
No one ever said we'd take it this far, this far
No one ever said we'd take it this far, this far
Who else you know can do it like this y'all, this y'all

Y'all keep saying I'm living a dream
My whip killer, king, I almost named it Christine
I reign supreme, we got back or football team
I touch down in the city now they cheer for me
Titanic-sized dreams, it's sad they won't make it
Save it like memory cards for play stations
Work from days to the grave shift
Tell me, how far do you think hate gets you
I could fill a magazine with girls that love to make issues
I gotta a list of things that you couldn't take with you
Anybody in the same place come play
Sent away and followed routes, like I study the game tapes
If we fuckin', I perform better than on stage
Bitches can't wait for it, like paid vacations
It's crazy to be moving state to state from statements
And you can bank, I chase more than rank and payment

I might be too cool with this one

I know what to do with this one
I'm getting in my groove for this one
I gotta new attitude for this one
Imma switch the mood for this one
Said, I know what to do with this one
I'm getting in my groove for this one
I gotta new attitude for this one

This far, this far
No one ever said we'd take it this far, this far
No one ever said we'd take it this far, this far
Who else you know can do it like this y'all, this y'all
