

## Time & Time Again

Mike G

You might know the feeling if you ever had money  
I'm the scientist how I get it out the lab money  
Don't play with slim baby, that's cash money  
Ask did he let you shine boy, with that bad money  
Promoters hit our managers and if you ask for me  
I say be like luggage handlers and get the bags for me  
God married to the game see that's holy matrimony  
And it's on sale gotta make it to them racks homie  
Stack a 100k to see how it looks in all ones  
I got cheat codes, I'm coming out with all of em  
So low you unknown, like "what number you Callin from?"  
If you see we all are one, then we all won

Time and time again, I may slip up but I don't fall down  
Getting to this bread, they pay respect when I come around  
Come and smoke with me, I think my feet might leave the ground  
I'm in and out the lane switch, still too smooth to make a sound

Some people never get to see the world, that's tragic  
Making something outta nothing, that's magic  
Bitches flip on me so easily, that's acrobatics  
Cause for fights is all black and white, that's static  
Crazy flow that might start a riot, that's madness  
You fighting for the bottom, Ali to where the cash is  
You might summon spirits, if you read these scriptures backward  
s  
If it ain't money talking, I don't understand ya accent  
Gotta get past all the negatives in politics  
Operate, although I'm awkward as any artist is  
Oscillate, fans switch sides, it's disheartening  
I get blown away, shit feels like a bomb hit  
Gotta get active just to relieve my conscious  
Get ya mouth in line, I'm you niggas orthodontist  
All my dawgs rattling the cages, don't stop it  
I'm grindin' with you niggas, like skateboard sponsors

Time and time again, I may slip up but I don't fall down  
Getting to this bread, they pay respect when I come around  
Come and smoke with me, I think my feet might leave the ground  
I'm in and out the lane switch, still too smooth to make a sound
