Mike G

Now who you know sicker than G?  
Take beats and LD's, My inhale on THC  
I'm here, They ain't gonna lose me like school ID's  
Cameras on the new movie is King Ali  
They say I don't speak slow enough  
Always put me down I just keep showing up  
Tried to explain they just keep saying what  
Say we can't get on the stations cause we keep saying fuck  
Well, there's rules to be broken so I crush that  
We stick around y'all flash like a bus pass  
I was invented committed never ever break, fast  
The stick up was just to jack them for they lunch cash  
That's pretty bold, so the competition's faint  
Won't tell you to get on my level because you can't  
Sue me  
You'll be hitting the floor like fuck roofies  
I rank top tier so when I'm here salute me  
Never fall off but if we do I'll win  
And drop tens 'til they screaming Mikey Rocks again  
Got some clothes from the Hundreds that I copped on a binge  
Because my shoes, shirt, hat, and my socks from them  
And I lived over the world close to Hollywood now  
I ain't leaving 'til our name shining bright from the ground  
Just trying to get my weight up  
Guaranteed to stay down  
And y'all ain't making noise  
All you do is make sounds  
They talk a lot had to put 'em in they place  
Mines first, thank me later medal golden like my state  
Your angel is sitting with me probably rubbing on my face  
You just crossed the city limits nigga welcome to LA
