Cuz you know how to act when you hit me on the cell
You don't be leavin me messages like you mad as hell
You tell me that your pussy's wet and you're thinking bout me
You know that you want it and you really just cant live without me
And I'll be glad to come but after that yo I got to go
Cuz if you start talkin shit bitch I holla ho
Don't have patience for no naggin' ass broad
The one who ignore you when your dick get hard
They know when your dough run low so they be frontin'
They don't give you no pussy if you don't give them no money
But you know what time it is when I'm in your spine with this
You know that you'll never find a dick like I possess
You feel it all in your chest
Sometime it hurt but you can't help but say yes
As I push this dick all up in your bush
Bust a couple of nuts and then I fire up the kush
You put on your panties I put on my drawers
We'll holla next week when the sun falls
