Mike Pinder

Oh, I hope that I see you again
I never even caught your name
As you looked through my window pane.

So I'm writing this message today
I'm thinking that you'll have a way
Of hearing the notes in my tune.

Where are you going? where have you been?
I can imagine other worlds you have seen
Beautiful faces and music so serene.

So I do hope I see you again
My universal citizen
You went as quickly as you came.

You know the power! your love is right,
You have good reason
To stay out of sight,
But, break our illusions, and help us
Be... the light.
