The Power Of Love

Pinder, Mike

There were some times when we worried
Then we would laugh at ourselves
Too little money to pay so many bills
And try to put some food on the shelves

I can remember the good times
When we forgot all the bad
It wasn't easy to hang onto a dream
And make it through the trouble we had

Hey baby, take a look at us now
Our dream and our love are alive
Hey baby, take a look at just how
The power of love can survive

Now love has bound us together
That factor can't be denied
So come on to me, I am your lovin' man
I see a look of love in your eyes

You said you'd love me forever
I said a hundred and five
Now you know darlin' I'm gonna hold you to
That promise cause it keeps me alive

Hey baby, take a look at us now
Our dream and our love are alive
Hey baby, take a look at just how
The power of love can survive

Now love has bound us together
That factor can't be denied
So come on to me, I am your lovin' man
I see a look of love in your eyes

Hey baby, take a look at us now
Our dream and our love are alive
Hey baby, take a look at just how
The power of love can survive

Hey baby, take a look at us now
Our dream and our love are alive
Hey baby, take a look at just how
The power of love can survive
