Echo

Mike Posner

Standing in the dark with the flashlight
Pretending it's the sun
You've been throwing rocks at the castle
But the king's not at home!

When the walls come tumbling down,
Is gonna make it go away
When the walls come tumbling down,
Is gonna make it go away
Is gonna make it OK!

Standing in the fire with the peak...
Pretending that is cold
You've been throwing rocks at the castle,
Burt the king's too tired!

When the walls come tumbling down,
Is gonna make it go away
When the walls come tumbling down,
Is gonna make it go away
Is gonna make it OK, OK!

Even when I'm gone away, you are always in my echo (echo)
Even when I'm gone away, you are always in my echo (echo)
Even when I'm gone away, you are always in my echo (echo)
Even when I'm gone away

When the walls come tumbling down,
Is gonna make it go away
When the walls come tumbling down,
Is gonna make it go away
Is gonna make it OK, OK!

Even when I'm gone away, you are always in my echo (echo)
Even when I'm gone away, you are always in my echo (echo)
Even when I'm gone away, you are always in my echo (echo)
Even when I'm gone away
