

Gotta be strong sometimes  
Days get long sometimes  
It all feels wrong sometimes  
But I keep moving on  
Yeah, I keep moving on  
Even when I know

Through the ups and the downs and all around, you know  
I, I try  
When things fall apart and times are hard, you know  
I, I try  
And I keep coming up to the top, I won't stop  
I, I try

I try

Dreams come true and we get through  
Life gets real, we breeze through  
That's December but it seems like June  
That's just God playing peek-a-boo  
And if you want something that you never had  
You gotta do something that you never have  
Life balance is easing challenges  
And it's hard sometimes but it's never bad  
This is the moment I'm supposed to have  
I have come too far, I'm not going back  
I lost it for a while but the flow is back  
Love, peace and joy, I am growing that  
And people keep testing me (uh-huh)  
But the old me's dead, yeah rest in peace  
And now I've got the recipe  
I didn't get all my goals but I did get my destiny

Through the ups and the downs and all around, you know  
I, I try  
When things fall apart and times are hard, you know  
I, I try  
And I keep coming up to the top, I won't stop  
I, I try

I try  
I, I try

Sometimes life gets hard  
But I keep doing my part  
My love is an ocean  
I gotta keep it in motion  
And I don't always make it  
Sometimes I am faking  
But love is what I steer towards  
'Cause that's what I'm here for

Through the ups and the downs and all around, you know  
I, I try  
When things fall apart and times are hard, you know  
I, I try  
And I keep coming up to the top, I won't stop

I, I try

I, I try

(I won't stop, no

I won't stop, I keep trying)

I try

(I won't stop, I won't stop, I keep trying

I won't stop, I won't stop, I keep trying)

I, I try
