

## Red Button

Mike Posner

As I sat across the desk from hova  
The only thing on my mind was you  
Now you say we're over  
I wasted all that time on you

Cause you let me go in December  
And I got signed in July  
You must think that I don't remember  
Cause now you call me all the time  
If you think I'm gon take you back,  
Babygirl you got another thing coming  
You should leave me alone  
Stop calling my phone  
Cause I'm just gonna hit that, hit that, hit that..

Red button, red button  
I don't wanna hear your voice  
You get the red button, red button  
You should leave me alone, leave me alone  
Red button, red button  
I don't wanna hear your voice  
Red button, red button  
Cause I'm just gonna hit that, hit that, hit that...

Like when you took the job on wall street  
Barely saw your face no more  
Mrs too good to call me  
Now I get paid more than you

Don't call my phone no more  
Don't call my phone no more  
Don't call my phone no more  
Don't call my phone no more

Don't call my phone no more  
Don't call my phone no more  
Don't call my phone no more  
Don't call my.. cause I'm just gonna hit that, hit that...
