Wide Open

Mike Posner

Somebody told me God is simply what we don't know
Saw a butterfly, it was dead, but it was gorgeous
And all the robots are just walking down the sidewalk
Kings of the little empires that they made up

And I'm wide open
And I'm wide open

Dusty got shot and then Osher got married
Stewie's still dead and commitment's still scary
I got a new woman but I treat her like my old one
If I keep this shit up, I know I'ma be with no one

And I'm wide open
Yeah, I'm wide open
