

Die Runnin'

Mike Ryan

You probably think it's been too long
That you shouldn't up and call like you used to
But the truth is, you've been on my mind and I gotta tell you
If you're heart's ever lonely and broken
All I want you to know is

Baby don't move a muscle
Stay right where you are
Couple thousand miles ain't nothing
There's no such thing as too far
I'll be showing up on the double
First sign of trouble I'm coming
And I'll get to you
Or I'll die running

Ever since the day that it ended, it's been feeling like a mistake
So if you're hurtin, don't worry, I'm already headed your way so

Baby don't move a muscle
Stay right where you are
Couple thousand miles ain't nothing
There's no such thing as too far
I'll be showing up on the double
First sign of trouble I'm coming
And I'll get to you
Or I'll die...

Running running to you
Nothing nothing I wouldn't do
Running running running so fast
All I need to hear is I want you back

Baby don't move a muscle
Stay right where you are
Couple thousand miles ain't nothing
There's no such thing as too far
I'll be showing up on the double
First sign of trouble I'm coming
And I'll get to you
Or I'll die running

Running running running so fast
All I need to hear is I want you back
Running running to you
Nothing nothing I wouldn't do
Running running running so fast
All I need to hear is I want you back
Running running to you
