

One Two Three

Mike Ryan

I got a table way back in the corner
Ordered a whiskey on ice
Traded a ten for a pocket of quarters and dropped them in one a
t a time
I picked all the songs that you like

And it's one two three, one two three dance with your memory
Girl ever since you've been gone
One two three, one two three dance with your memory
Round after round after round
In my head all night long

There's a girl at the bar
Shooting me little glances
With eyes you can lose yourself in
She offered a drink, but a drink leads to dancing
So I had to tell her right then
I'm sorry, but you're cutting in

And it's one two three, one two three dance with your memory
Girl ever since you've been gone
One two three, one two three dance with your memory
Round after round after round
In my head all night long
All night long

I don't know where you are
But baby right now
You're back in my arms, got you spinning around
Then right on cue, it's A21
That rockola jukebox is playing our song

And it's one two three, one two three dance with your memory
Girl ever since you've been gone
One two three, one two three dance with your memory
Round after round after round
In my head all night long
In my head all night long
