

## Pass It Around

Mike Ryan

Fresh shine on a Chevrolet, handle of whiskey tucked away  
I got a twenty that says tomorrow it'll be gone  
Lose strings on an epiphone  
Got hooked up with some homegrown  
Hometown girls that got nothing going on  
Till the break of dawn

Pass it around, pass it around  
If you can sip it, smoke it, strum it or toke it  
Break the seal and roll it, roll it on out  
We're gonna buzz, we gonna fly  
We gonna slow unwind so fall in line  
With the head lights heading out to the edge of town  
Where the sun goes down, pass it around

Mason jar full of mountain clear, take a pull and have no fear  
Hand it to somebody with a smile  
Radiodripping through the air, a little back woods truth or dare  
Anything goes it going down tonight and that's right

Pass it around, pass it around  
If you can sip it, smoke it, strum it or toke it  
Break the seal and roll it, roll it on out  
We're gonna buzz, we gonna fly  
We gonna slow unwind so fall in line  
With the head lights heading out to the edge of town  
Where the sun goes down, pass it around

Pass it around, Pass it around  
Pass it around, give it a whirl  
Enjoy the ride, feel the burn  
Breath it in, drink it all down let's get right tonight

Pass it around, pass it around  
If you can sip it, smoke it, strum it or toke it  
Break the seal and roll it, roll it on out  
We're gonna buzz, we gonna fly  
We gonna slow unwind so fall in line  
With the head lights heading out to the edge of town  
Where the sun goes down, pass it around

Pass it around, give it a whirl  
Enjoy the ride, feel the burn  
Breath it in, drink it all down let's get right tonight

Pass it around, give it a whirl  
Enjoy the ride, feel the burn  
Breath it in, drink it all down
