

# All That Talk

Mike Stud

We could put the top down we could ride out  
Little green play time with your life now  
Yea you could bring your friends we can mob out  
Back to my house yea we can vibe out  
And we can kick them all out girl you're mine now  
We can drink a little wine just to wind down  
Ooo you a freak lemme find out  
Ooo you in trouble now time out  
You walked up in your Giuseppe's  
Have you wake up in only Freshetes  
We could kick it kick it like Messi  
Like Messi  
Girl you so cold like Gretzky  
I can make you dip dip low like Wesley  
You're the only one that really gets me  
You get me

You always call me when you're drunk  
Playing all your friends my songs  
I know what you really want  
Yea I know

Ain't got shit to do right now  
I think we should cruise right now  
To see what all that talk is about  
Talk is about right now  
So come on, make your move right now  
Girl it's just me and you right now  
To see what all that talk is about  
Talk is about right now

Ain't gotta think about shit when we're on the road  
GPS girl tell me where you wanna go  
Yea you can hit the J if you wanna smoke  
Yea we can get high keep it on the low  
She float like a butterfly sting like a bee  
Louis Vuitton heels but she quick on her feet  
You can't tell shit but she listens to me  
It's different with me  
Barely 21 but she a savage  
Takes my lyrics and makes a caption  
She don't pay for shit but she pays her taxes  
She likes Fall Out Boy and Weezer  
Late night stops with pizza  
Please no grease up on my t-shirt

You always call me when you're drunk  
Playing all your friends my songs  
I know what you really want  
Yea I know

Ain't got shit to do right now  
I think we should cruise right now  
To see what all that talk is about  
Talk is about right now  
So come on, make your move right now  
Girl it's just me and you right now

To see what all that talk is about  
Talk is about right now

Ain't got shit to do right now  
I think we should cruise right now  
To see what all that talk is about  
Talk is about right now  
So come on, make your move right now  
Girl it's just me and you right now  
To see what all that talk is about
